

# Dock for iPod Your Media Everywhere

The Control4® Dock for iPod is the most effective and affordable way to connect your iPods to your Control4® system. The Control4 Dock for iPod offers better navigation and control than existing docks, allowing you to effectively distribute music and video throughout your home. Access a single iPod or connect all of your family's iPods at the same time simply by adding more docks.

Control4 delivers the benefits of a truly automated home by providing solutions that are affordable, easy to install, and designed to adapt to any home or lifestyle.

## Features and Benefits

### Smart Design

- **Access your music from virtually anywhere** — Use any Control4 interface to control your iPod, even if it's physically docked in a different room.
- **Better navigation and control** — Using familiar navigation, you can view album cover art for your music and control your iPod.
- **Sleek tabletop design** — Integrates easily into any Control4 environment.

### Easy To Install

- **Seamless integration** — Just dock your iPod for immediate accessibility by your Control4 system.
- **Simple installation** — Easy to install, set up and personalize in new or existing homes.
- **Standards-based** — IP based connections via standard Ethernet allow fast, accurate two-way communication with the central home controller.

### Easy to Use

- **For one iPod or many** — Multiple docks can be placed in the home and managed through standard navigation that supports a wide range of iPod products.
- **Play your iPod in any room** — Like digital music, multiple rooms can access a single audio or video stream from your iPod.
- **Charge while you listen** — Your iPods will recharge anytime they are docked.

Easily **access** your iPods, navigate your playlists, **view** music cover art, and **manage** your music from any Control4 on-screen or touch-screen interface.
